# History

We are backed by dedication and drive:

- Nookal was created from a need for a **secure cloud-based** allied health platform.
- Our goal is to **be the preferred** cloud software provider for the health industry.
- We have been steadily **growing since 2010** accumulating a team of qualified experts.
- Our customers range from **individual practitioners** up to nationwide multi-location industry **leading brands**.

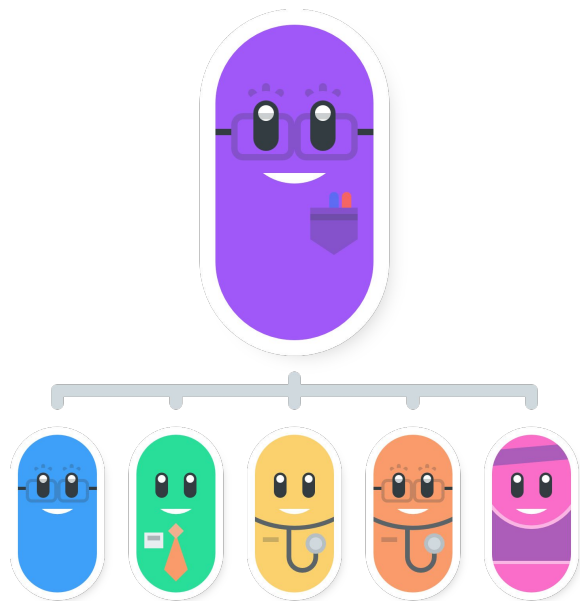

# Scalability

One of our larger nationwide brands uses our platform to serve the daily practice management needs of their **4000+ providers and staff**.

We meet their daily needs with:

- Load Balancing Infrastructure for **Scale**.
- International Data Centers for **Privacy**.
- In-Transit/At-Rest Encryption for **Security**.
- Regular Certification for **Compliance**.
